

THE 5-DIMENSION EMPLOYEE & WORKFORCE DIAGNOSIS PROGRAM

# Workforce X-Ray™

Your workforce doesn't need another survey. It needs a diagnosis.

A structured **workforce health check** that examines every employee across **5 dimensions and 60 questions** — then hands your HR leadership an aggregate organisational diagnosis, confidential reports for every employee, and a live masterclass to build your **90-day workforce roadmap**.

**PHASE 1**

## The 5-Dimension Workforce Scan

- 1 Performance & Capability Signature**  
Role clarity, capability fit & KPI alignment
- 2 Wellbeing & Stress Load**  
Sustainable pace, workload & recovery capacity
- 3 Behavioural & Productivity Patterns**  
Focus time, meeting load & deep-work capacity
- 4 Growth Gap & Aspiration Alignment**  
Career visibility, learning & promotion pathway
- 5 Team, Manager & Culture**  
Manager effectiveness, team & culture signals
- 6 HR Leader Mindset Layer**  
The psychological patterns governing the HR function itself

**PHASE 2**

## HOW YOUR ENGAGEMENT RUNS

- 1 Enrol & onboard**  
30-min HR call — employee list, consent framework, communication plan
- 2 Employees complete the X-Ray form**  
60 questions, 35–40 minutes, submitted confidentially over 10–14 days
- 3 Certified assessor analyses every submission**  
Individual scoring plus aggregate rollups — weakest dimensions flagged
- 4 Dual reports delivered**  
A confidential personal report per employee + the Organisational X-Ray to HR
- 5 3-hour live Diagnostic Masterclass**  
Your real aggregate results decoded — leave with a prioritised 90-day roadmap

## THE CONFIDENTIALITY PROMISE

**No one else sees raw answers.** Each employee's individual responses are visible only to them and their assigned certified assessor. The employer receives only **aggregated, anonymised data** across five or more employees — and all data is deleted **180 days** after the engagement closes.

### ★ WHAT THE DIAGNOSIS DELIVERS

A **300-point Workforce Health Score** across the five dimensions, a separate **40-point HR Leader Mindset score**, department-level breakdowns, and an attrition-risk cluster analysis.
